ABOUT ME

Detail-oriented and versatile Fullstack Web Developer with 3+ years of professional experience in building scalable web applications and frontend libraries. Skilled in JavaScript, Vue.js, React, Laravel, and MySQL, with proven ability to deliver high-quality software solutions, optimize performance, and collaborate in cross-functional teams. Recognized for strong problem-solving skills, technical documentation, and commitment to continuous learning.

EDUCATION

Technological University of the Philippines | 2018-2022

Bachelor of Science in Information Technology

Graduated Cum Laude (Rank 19, Batch 2022)

WORK EXPERIENCE

Flexicon Solution Inc. | Sep 2024 - Present

Software Engineer

I develop responsive layouts and reusable UI components using Vue.js, Nuxt, SCSS, and Quasar. I also document components with Storybook and perform automated testing with Cypress to ensure quality and consistency.

Department of Science and Technology - SEI | Mar 2023 - Sep 2024

Full Stack - web developer

I built the Project Management Information System (PMIS) with Vue.js, Laravel, and MySQL to improve internal project tracking. My role included documentation, testing, bug fixes, and presenting system demos to stakeholders.

Xtendly Philippines Inc. | Jul 2022 - Feb 2023

Junior Frontend Developer

I maintained and enhanced client websites using React.js, Laravel, MySQL, and WordPress. My work included creating designs, building layouts, and ensuring functionality across platforms.

SKILLS

Frontend: Vue.js, Nuxt.js, React.js, JavaScript, SCSS, Storybook, Cypress

Backend: Laravel, PHP, MySQL, PostgreSQL, MongoDB Atlas

Other Tools & Languages: Python (Web Scraping, Automation), C#, WordPress

CERTIFICATIONS & ACHIEVEMENTS

Google Crash Course on Python | Coursera | Jul 2023

Advanced CSS and Sass | Udemy | Jan 2025

Cum Laude | TUP-Taguig | Batch 2022
